

MULTI-PURPOSE

CRC 5-56 Multi-purpose is a service spray that penetrates, lubricates and prevents corrosion. The original toolkit in a can.

CRC 5-56 Multi-purpose forms a thin film that lubricates moving parts for smooth action and silences annoying squeaks and squeals. Superior penetrating power breaks through rust and corrosion, loosens rusted parts, displaces water from wet equipment and cleans away scale and dirt. It protects metals from corrosion caused by humidity, salt air and other corrosive atmospheres.

5-56 Multipurpose 420ml, Code: 1751837

TYPES OF USE:

- Tools and Machinery
- Attacks Rusted Parts
- Squeaky Hinges
- Starts Wet Engines

LOW ODOUR

The trusted 5-56 multi-purpose service spray in a low odour, no solvent formula. Ideal for areas where odour may be a concern, in confined spaces or where solvent use is regulated.

CRC 5-56 Low Odour is the latest technological breakthrough in the 5-56 family. It combines the 4 strengths of 5-56 Multipurpose - it lubricates, penetrates, displaces moisture and protects from corrosion now with a low odour and no solvent formula. This makes it ideal for use in confined places or areas where odour sensitivity is a concern.

5-56 Low Odour 420ml, Code: 1751840

TYPES OF USE:

- Tools and Machinery
- Attacks Rusted Parts
- Squeaky Hinges
- Starts Wet Engines

MARINE

CRC 5-56 Marine is a multi-purpose lubricant designed to prevent damage due to water and salt atmosphere in marine engines and boating equipment.

CRC 5-56 Marine increases life span, decreases maintenance and assures improved performance of all marine motors. It forms a thin film that protects metals from corrosion caused by humidity and salt air for extended periods and lubricates moving parts for smooth action. Superior penetrating power breaks through rust and corrosion, loosens rusted parts and keeps them free, displaces water from wet equipment and cleans away scale and dirt. It displaces moisture out of ignition systems to help start wet engines.

5-56 Marine 420ml, Code: 1751839

TYPES OF USE:

- Engines and Outboards
- Boating Equipment
- Trailer Maintenance
- General Marine Use

INDUSTRIAL

CRC 5-56 Industrial is a high performance variant of CRC 5-56 fortified with PTFE for additional lubricating performance and is non-flammable making it safe for use in industrial applications.

The presence of PTFE provides effective lubrication and performs extremely well when frequent start/stop or alternating movements occur. Superior penetrating power breaks through rust and corrosion, loosens rusted parts, displaces water from wet equipment and cleans away scale and dirt.

5-56 Industrial 420ml, Code: 1751842

TYPES OF USE:

- Industrial Tools
- Industrial Machinery
- Attacks Rusted Parts
- Starts Wet Engines

ELECTRICAL

CRC 5-56 Electrical is a plastic safe lubricant, penetrant, cleaner and corrosion inhibitor that helps prevent electrical malfunction caused by water penetration, humidity, condensation or corrosion and restores electrical properties after water damage. Non-flammable and silicone-free.

As part of a preventative maintenance programme, CRC 5-56 Electrical helps prevent electrical failures by protecting equipment from moisture and corrosion. A thin residual film with light lubricating properties seals out moisture and provides long-lasting protection for electrical equipment even in difficult environmental conditions.

5-56 Electrical 420ml, Code: 1751841

TYPES OF USE:

- Electrical Connectors
- Motor Generator
- Navigation & Telco Equipment
- Auto Electrical
