PROTECTION			LONG TERM	UP TO 5.5 YEARS	UP TO 6 YEARS	UP TO 5 YEARS	UP TO 5.4 YEARS	UP TO 3 YEARS	UP TO 5 YEARS	UP TO 2 YEARS	UP TO 3 YEARS	UP TO 3 YEARS	UP TO 3 YEARS	LONG TERM
FEATURES & BENEFITS	<ul style="list-style-type: none"> Removes rust effectively from the parts where disassembly is not possible. No need to soak, works on all types of mild steel and iron 	<ul style="list-style-type: none"> Ready to use and Reusable Non-toxic rust remover for fast and effective restoration 	<ul style="list-style-type: none"> Instantly neutralises rust Converts rust to a usable surface for priming & painting 	<ul style="list-style-type: none"> Zinc rich primer & sealer Bonds to bare metal or most surfaces including painted surfaces 	<ul style="list-style-type: none"> >95% of Zinc in the dried film - provides the longest period of rust protection Excellent weldability Offers the same advantages as hot-dip galvanising 	<ul style="list-style-type: none"> Resembles the colour of new galvanising Forms a quick-drying highly protective metallic zinc coating 	<ul style="list-style-type: none"> Long reach + Wide coverage Dries rapidly for a quick return to service Weld through 	<ul style="list-style-type: none"> Protective + Decorative High levels of anti-corrosive zinc complexes gives outstanding protection 	<ul style="list-style-type: none"> Forms a tough but flexible enamel coating for heavy-duty protection Excellent adhesive qualities 	<ul style="list-style-type: none"> Seals surface with a smooth, clear and high gloss finish Provides protection from damaging UV light Non-conductive 	<ul style="list-style-type: none"> Can be sanded prior to applying decorative finish Zinc enriched for corrosion protection 	<ul style="list-style-type: none"> Forms a durable protective coating with a red-oxide finish Zinc enriched for corrosion protection 	<ul style="list-style-type: none"> Excellent adhesion to bare metal Compatible with most standard decorative paint systems for metals 	<ul style="list-style-type: none"> Superior adhesion to metal, aluminium, or galvanised surfaces Durable anti-corrosive protection. Does not require immediate overcoating
IDEAL FOR	Outdoor furnitures, tools, equipment	Rusty tools, hardware, automotive parts, household items, antiques	Railings & fences, equipment & tools, household furniture (iron/steel), truck frames/beds	Use after rust treatment on railings & fences, equipment & tools, household furniture (iron/steel)	Welded steel/iron, transformers, guard rails, fences, generators	Fences, trailers, towbars, guard rails, wheels	Speedy touch-up/repair of galvanised products in manufacturing, welding, sandblasting and mechanical workshops	Transmission towers, winches, iron railings, water tanks	Safety equipment, shipping containers, wheels, tow bar, and trailers	Printed circuit boards, painted surfaces, surfaces recently restored with CRC Rust Converter	Primer coat over bare metal or intermediate coat over CRC Zinc It, Prime It, CRC Rust Converter or CRC Etch It	Structural steel and iron and can be applied over clean or lightly rusted surfaces	Bare aluminium, stainless steel, brass, copper and galvanised metal surfaces	Key-coating metals, bare aluminium, galvanised metal surfaces, stainless steel, brass and copper
