Maintenance Compound: CRC Industries New Zealand, MC0005062

I refer to your application dated 11 May 2026.

Your application has been approved under Regulation 247 of the Animal Products Regulations 2021 and Regulation 43 of the Raw Milk for Sale Consumers Regulations 2015, and satisfies the requirements of Regulations 12, 13, 14, 53 of the Animal Products Regulations 2021, when used in accordance with the label.

This approval expires on 30 June 2031. Renewal before the end of this period is your responsibility. MPI will aim to send you a reminder email to renew your registration. Please ensure you notify MPI if your email and/or postal address changes. If you do not renew your approval, continued operation may be in breach of the Animal Products Act 1999.

Approval MPI ID number
Your unique approval MPI ID number is MC0005062.

Please always use the MPI ID number above in all your communications with MPI about this approval.

Scope and Condition(s)

Scope	
Product Name	Food Grade Water Based Silicone
Product Material	Dairy maintenance compound
Intended Use	Farm dairies and dairy processors

Approval is subject to the following conditions.

Conditions	
DC7 Grease, lubricant, release agent (not for use on/near food contact surfaces)	1. This must be used in accordance with label instructions as a lubricant. 2. This must not be used on milk or food contact surfaces. 3. This must not be used in close proximity to exposed milk or milk contact surfaces, food or food contact surfaces, and food contact packaging. 4. The method of use must ensure that milk or milk contact surfaces, food or food contact surfaces, and food contact packaging are not adversely affected. 5. The amount used must be the minimum required to accomplish the technical effect. 6. If incidental contact with a milk or food contact surface occurs, the surface must be cleaned and thoroughly rinsed with suitable water to ensure no residue remains.

Public Register
The approval can be viewed on the MPI public register: https://www.mpi.govt.nz/food-business/food-safety-registers-lists/register-of-approved-maintenance-compounds.

The register is also open for public inspection at the Ministry for Primary Industries head office, or you can write to MPI Approvals to request a copy.

You must notify MPI in writing of any change to your approval.

Sign up for MPI updates: MPI provides an e-mail notification service for any website updates to standards, legislation, and export requirements. MPI recommends you and your relevant staff subscribe to receive these notifications. To sign up to receive notifications go to https://www.mpi.govt.nz/news-and-resources/subscribe-to-mpi/ and select topics of interest.

Maintenance Compound: CRC Industries New Zealand, MC0005063

I refer to your application dated 11 May 2026.

Your application has been approved under Regulation 247 of the Animal Products Regulations 2021 and Regulation 18 of the Animal Products (Regulated Control Scheme – Limited Processing Fishing Vessels) Regulations 2001, and satisfies the requirements of Regulations 12, 13, 14, 53 of the Animal Products Regulations 2021, when used in accordance with the label.

This approval expires on 15 May 2031. Renewal before the end of this period is your responsibility. MPI will aim to send you a reminder email to renew your registration. Please ensure you notify MPI if your email and/or postal address changes. If you do not renew your approval, continued operation may be in breach of the Animal Products Act 1999.

Approval MPI ID number
Your unique approval MPI ID number is MC0005063.

Please always use the MPI ID number above in all your communications with MPI about this approval.

Scope and Condition(s)

Scope	
Product Name	Food Grade Water Based Silicone
Product Material	Non-dairy maintenance compound
Intended Use	Non-dairy processing

Approval is subject to the following conditions.

Conditions	
C 15 Lubricant or Solvent	1. This can be used during processing of food to lubricate moving parts of equipment when the lubricated surface is either an integral part of the food contact surface, or where contamination could result from bearing seal leakage. 2. The amount used should be the minimum required to accomplish the technical effect. 3. The equipment must be maintained, including the application of lubricants, according to the specifications of the equipment manufacturer. 4. The lubricated surface must be maintained according to requirements for sanitation of food contact surfaces. Where necessary the relevant parts of the equipment must be dismantled to inspect the adequacy of cleaning. 5. If incidental contact with a food contact surface occurs, the surface must be thoroughly cleaned and rinsed with suitable water to ensure that no residue remains that could be transferred to food or edible product. This is also approved for C 11 and C 13 applications.

Public Register
The approval can be viewed on the MPI public register: https://www.mpi.govt.nz/food-business/food-safety-registers-lists/register-of-approved-maintenance-compounds.

The register is also open for public inspection at the Ministry for Primary Industries head office, or you can write to MPI Approvals to request a copy.
