TECHNICAL DATA SHEET

CRC EVAPO-RUST® Brush On Gel

CRC EVAPO-RUST® Brush On Gel is a powerful, brushable gel format rust remover that clings to surfaces to effectively remove rust on mild steel and iron. Without the need to soak or disassemble the item.

It is ideal for in-place applications and vertical surfaces. It is suitable for use on large items that cannot be disassembled.

Item Code: 1757978 **Pack Size: 1L Bottle**

Features and Benefits

- **Effective rust remover:** Breaks down & removes rust build up from mild steel & iron
- **Non-drip:** Ideal for in-place applications, hard to reach areas & vertical surfaces
- **No soaking required:** Suitable for large items that can't be disassembled
- **Brush on, rinse & scrub off formula:** Enables easy inspection to ensure complete rust removal
- **Targeted application:** Gel formula allows for precise application & full coverage of hard to reach areas
- **Non-toxic, non-caustic, non-flammable & contains no petroleum**

Applications

Cars, trucks, boats, trailers, iron, steel, railings, fences, gutters, spouting, garden & outdoor equipment, tools, & more

Typical Properties and Characteristics

Flash Point	N/A
Boiling Point	N/A
Odour	N/A
Appearance	White Gel
Solubility	Miscible in Water

% Volatile	N/A
Vapour Density	N/A
Specific Gravity	1.15
Flammability	Non-Flammable

TECHNICAL DATA SHEET

CRC EVAPO-RUST® Brush On Gel

Directions

1. Pre-clean item if it is dirty or oily and remove any loose rust scale.
2. For best results do not use in direct sunlight. Ensure metal is cool to touch.
3. Shake well before using. Pour estimated amount needed into a clean container. (Clean, used material can be returned to original container after use.)
4. Apply a heavy coat of gel to the surface to be treated using a soft bristle brush or similar.
5. For optimal results allow 2 to 3 hours before gel removal. Heavily rusted items and mixed materials will require longer working time and repeat applications.
   Note: A white film may appear on the item during the treatment process. This film can be scrubbed and washed off with a hard brush and water.
6. To inspect treatment progress, rinse and clean any gel off the item with water and dry with a cloth. If further rust treatment is required repeat step 5.
7. Avoid letting gel dry on the surface. If product dries a hard brush and water may be required to remove it.
8. For best results post rust treatment, surface can be coated with CRC Zinc It, CRC Metal Armour, CRC Long Life or similar.

Note: Test on a small, inconspicuous area before use to assess material compatibility including decorative or polished surfaces.

Special Precautions

General:
May be corrosive to metals. Harmful if swallowed. Causes severe skin burns and eye damage. Do not breathe vapours. Wash throughly after handling. Wear protective gloves, protective clothing, eye protection and face protection. Do not eat drink or smoke when using this product. Store locked up. Dispose of contents/container in accordance with relevant regulations.

Refer to **Safety Data Sheet** for more details.

Product Warranty or Shelf Life

CRC offers a conditional warranty on this product for the period of 2 years from the date of manufacture.
