

# Dusters & Freezers Are Changing

**CRC now offers NEW Air Dusters & Freeze Sprays with  
Very Low Global Warming Potential**

**We have made a change for the better, you should too**

Our latest range comes with significant improvements in performance and sustainability with large decreases in their Global Warming Potential (GWP). Moving to HFO-1234ze and propane based formulas means they are now classified as very low GWP products, which also do not deplete ozone.

Air Brush 360 and Duster now come with the added benefit of having a 360° spray system allowing you to spray at any angle, perfect for getting into hard to reach places.

# CRC Air Brush 360

## High Pressure, Non-Flammable Invertible Duster

CRC Air Brush 360 is the latest evolution in our dust removal products.

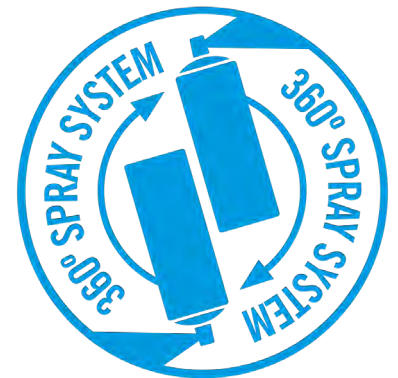

CRC Air Brush 360 supplies a non-flammable powerful burst of compressed pure propellant gas to safely remove dust and lint from all delicate precision equipment and hard-to-reach areas. It is versatile and handy and should be part of every servicing kit - ideal for off site servicing when compressed air is not available.

The added benefit of having a 360° spray system allows you to spray at any angle, perfect for getting into hard to reach places.

CRC Air Brush 360's HFO formula significantly reduces its Global Warming Potential compared with traditional aerosol-based dusters.

### Features:

- 360° spray system allows for can to be used at any angle for hard to reach places
- Non-flammable
- Non-abrasive, non-corrosive, moisture-free, leaves no residue
- Safe on all plastics
- Ideal for electrical, industrial, automotive, office and household use. Anywhere dust needs to be safely removed from.
- HFO formula – Very Low Global Warming Potential (GWP). Compared to traditional aerosol based dusters it has been formulated to reduce environmental impact.
- RoHS Compliant
- MPI C22 Approved

# CRC Duster

## High Pressure Invertible Duster

CRC Duster easily blows away dust and lint from hard to reach and delicate places with a powerful burst of compressed gas. Use CRC Duster to avoid scratches from rubbing off dust on delicate items like screens, dashboards and electronics. Use can at any angle with 360° spray system, blow dust from even the most inaccessible areas.

### USE CRC DUST BUSTER ON:

Cars, trucks, boats, commercial vehicles, aeroplanes, helicopters, around the office, home and garage.

### REMOVE DUST FROM:

All electronics – computer boards, fans, vents, keyboards, tablets, printers, flash drives, discs, TVs, mobile phones. Cameras, lenses, optics, cases, watch repairs. Engines, wiring, dashboards, display binacles and all those tricky little places.

CRC Duster's new propane based formula significantly reduces its Global Warming Potential compared with traditional aerosol-based dusters.

## Features:

- Delivers a powerful burst of propellant
- Ideal for delicate and hard to reach places
- Non-abrasive, non-corrosive, moisture-free, leaves no residue
- 360° spray system allows for can to be used at any angle for hard to reach places
- Safe on all plastics
- RoHS Compliant
- MPI C22 Approved
- Clearly marked Flammable red can for easy identification

# CRC Freeze Spray

## Multipurpose Freezing Agent

CRC Freeze Spray is a multi-purpose freezing agent for maintenance, trouble shooting and repair – a handy tool for use in electronics, engineering, automotive and more.

CRC Freeze Spray instantly cools small components and isolates circuits to assist with immediate fault finding of heat-induced failures. It aids in the assembly of close tolerance or interference fit configurations and is a helpful tool for many other engineering, aviation and automotive applications.

CRC Freeze Spray's HFO formula significantly reduces its Global Warming Potential compared with traditional aerosol-based dusters.

### Features:

- Aids in the assembly of close tolerance or interference fit configurations
- Isolates circuits to assist with immediate fault finding or heat induced failures
- Pure formulation – Dries instantly, leaves no residue, non-abrasive
- Non-flammable
- Perfect for removing gum from fabrics – Simply freeze and break off
- Safe on plastics and polystyrene
- MPI Approved C22
- HFO formula – Very Low Global Warming Potential (GWP). Compared to traditional aerosol based dusters it has been formulated to reduce environmental impact
- RoHS Compliant
